Percentage	80%

INTERNSHIP

Web Developer Intern at [FUTURE MICROSTRATEGY](#)

Collaborated with a team of developers and designers to create responsive and user-friendly web applications using HTML, CSS, and JavaScript. Contributed to the design and implementation of a dynamic dashboard.

PROJECTS

Note-Taker App (June 2023 - June 2023)

- This web app has been designed in javascript contains CRUD operations on note.

Movie suggestion App, (July 2023 - July 2023)

- This is react js based project which suggests movies and TV shows by using API calls. In this project we used Redux, React-Router-Dom, API calls, jsx, components, props, states, conditional rendering and SCSS for styling.

Text Modifier, (March 2023 - April 2023)

- This is react js based project .In this project we can modify the text with a single click.

Server Client Messenger, (September 2022 - October 2022)

- In this project we can make a conversation between server and client. I used the concept of socket programming and networking.

Encryption Decryption of a file, (June 2022 - July 2022)

- In this project we can encrypt the file with a key and later use that key to decrypt that file.

Frontend of E-Commercial Website by using HTML, CSS, Javascript, (February 2022 - March 2022)

- In this project there is a frontend of a shopping website which has home page, product page, cart page and login page etc.
